THE COOPER NURSERY CO.,

GEO. S. COOPER & SON, Props.,

SALEM, - OREGON.

Are Selling Nursery Stock of Extra Quality, at prices according to the times.

The stock offered in this list is undoubtedly one of the finest lots ever grown in the Willamette Valley, as our trees have made a remarkably strong, thrifty growth and are certain to give entire satisfaction to all customers who favor us with an order.

Nearly all our stock is grown from buds in whole roots, but a few trees are from stump grafts where the buds failed.

We make it a specialty of getting our stock true to name and furthermore they are free from all injurious insects. We are prepared to furnish any kind of fruit or ornamental stock wanted, that is not mentioned herein, at low prices.

Will exchange any kind of stock for 200,000 apple seedlings, 100,000 Myroblan seedlings, 50,000 pear seedlings, 50,000 cherry seedlings.

Conover's Colossal.

Vanderpool's Late Red apple is probably the most valuable new fruit in existence at the present time. This remarkable apple originated in Benton Co., Oregon, on the premises of D. H. Vanderpool, and has borne fine crops of most excellent fruit for the last four years. When kept alongside of the best late keeping apples, the fruit of this variety has remained perfectly sound for several months after all others were gone. The fruit is of a deep red color; no better cooking or eating apple has ever been grown. We have the entire stock of this new apple. The English Bramble Evergreen B. B. is a new variety of Evergreen Blackberry lately imported from England. We have fruited this variety three years now and find it far superior to the old or common Oregon Evergreen. It is wonderfully productive and everbearing. The fruit is much finer flavored than the Oregon.

We commence digging and shipping about October 20, and continue during the season.

Yours etc.,
